BIENNIAL REPORT
OF THE
STATE UNIVERSITY
TO THE
LEGISLATIVE ASSEMBLY
OF THE
STATE OF OREGON,
1882.

SALEM, OREGON:
W. H. ODELL, STATE PRINTER.
1882.

To the Governor of the State of Oregon:

In pursuance of the Statute in this case made and provided, I make the following report to you concerning the transactions of the Regents and the progress and condition of the University during the year ending June 30, 1882.

MATTHEW P. DEADY,
President Board of Regents.

JULY 29, 1882.

REPORT OF THE PRESIDENT OF REGENTS.

RECEIPTS AND DISBURSEMENTS.

The receipts and disbursements for the year, as appears from the reports of the Secretary and the Treasurer, were as follows:

RECEIPTS.

Interest on the University Fund.....	\$5,582 00
Appropriation by the State.....	1,875 00
Tuition.....	3,883 50
Incidental fees.....	1,158 50
Diplomas, sale of.....	160 00
Villard donation for professorship.....	440 00
	\$13,099 00
Balance on hand June 30, 1881.....	415 76
Total balance and receipts.....	\$13,514 76

DISBURSEMENTS.

Salaries in Col. Dept.....	\$7,000 00
Interest paid on same.....	32 99
	\$7,032 99
Salary in Prep. Dept.....	960 00
Salary of Secretary.....	325 00
Salary of Janitor.....	500 00
Salary of Treasurer.....	100 00
Printing.....	167 50
Advertising.....	134 63
Insurance.....	582 50
Wood.....	91 00
Dictionaries (5).....	48 50
Stationery.....	31 78
Regents, expense of.....	17 00
"Chicago Times" and "Education Journal".....	35 00
Sundries.....	245 74
Total disbursements.....	\$10,271 64

Total balance and receipts.....	13,514 76
Balance on hand June 30, 1882.....	\$ 3,243 12

WARRANTS.

The amounts for which warrants were drawn by the Secretary during the same period is, \$10,134 68.

SPECIAL FUNDS.

In addition to the foregoing receipts, there was deposited by Mr. Henry Villard on November 1, 1881, in the First National Bank, at Portland, to the credit of the Treasurer of the Regents, as follows:

Apparatus, for the purchase of	\$1,000 00
Prizes for the Scholars.....	250 00
Total.....	\$1,250 00

The Treasurer reports upon these donations as follows:

Expended for apparatus.....	\$ 43 12
Distributed as Prizes to 8 Scholars.....	250 00
Total....	\$ 293 12
Balance on hand June 30, 1882.....	956 88
	\$1,250 00

SALARIES.

At the last annual meeting of the Regents, the annual salaries of the teachers were revised and fixed as follows:

The President, \$2,200.

Four Professors in the Collegiate Department and the Principal of the Preparatory Department, \$1,760 each, making in all \$11,000.

But it is distinctly provided that the payment of these salaries depends each year upon the income of the school, so that if it proves insufficient to meet the current expenses and pay these salaries, they must be reduced in proportion. Each year must pay its own way.

In addition to this, Prof. Condon was allowed \$250 a year for the use of his large and valuable paleontological collection. This "Stone Library," as it may well be called, has been of much service in the school, and attracted favorable attention to it from far and near, and it was time that some compensation was made to its owner for its use.

RECEIPTS FROM 1877 TO 1882.

The following table shows the current receipts of the school from 1877 to 1882, inclusive, and whence derived:

June 30, 1877—		
Interest.....	\$2,470 53	
Tuition.....	3,184 47	
	—————	\$ 5,655 00
June 30, 1878—		
Interest.....	\$3,101 00	
Tuition.....	4,128 00	
	—————	7,229 00
June 30, 1879—		
Interest.....	\$3,507 50	
Tuition.....	3,808 00	
Appropriation.....	1,925 00	
	—————	9,240 50
June 30, 1880—		
Interest.....	\$5,135 00	
Tuition.....	4,127 97	
Appropriation.....	1,825 00	
	—————	11,087 97
June 30, 1881—		
Interest.....	\$6,008 00	
Tuition.....	4,045 75	
Appropriation.....	3,125 00	
	—————	13,178 75
June 30, 1882—		
Interest.....	\$5,582 00	
Tuition.....	5,042 00	
Appropriation.....	1,875 00	
Villard donation.....	440 00	
	—————	12,939 00
Total.....		\$59,330 22

This statement does not include the appropriation of \$20,000 made by the State (Ses. L. 1876, p. 62) for the completion of the building, improvement of the grounds and the purchase of apparatus, nor the \$1,250 given by Mr. Villard for apparatus and scholarships, as above stated.

From this, it will be seen, that the current expense of maintaining this school during these first six years of its existence, has been on an average, \$9,888 53½ a year, and that of this amount \$24,336 19, nearly one-half, has been received from tuition; \$25,804 03 from interest on the University Fund; \$8,750 from the annual appropriation made by the State in 1878 (Ses. L. p. 57), to compensate for the annual loss of the interest on \$30,000 of the University Fund theretofore improvi-

dently and unproductively loaned by the State; and \$440 given in the last year as above stated.

STUDENTS—ATTENDANCE.

Studies were commenced on September 12, 1881, and ended on June 15, 1882. The college year of forty weeks was divided into three terms—the first ending on December 30, 1881, the second on April 7, 1882, and the third with the year.

The attendance in the collegiate department, as appears from the report of the President, was as follows: Whole number enrolled, 143; first term, 132; women 55, men 77; second term, 133; women 49, men 84; third term 89; women 38, men 51; average attendance for the year 118; women 48, men 70.

The highest number of free students in attendance was 72; average for the year 62; women 23, men 39. The highest number of paying students in attendance was 64; average for the year 55; women 23, men 32.

The attendance upon free scholarships was from the following counties: Baker 3, Benton 6, Clackamas 5, Douglas 6, Jackson 3, Lake 1, Lane 7, Linn 4, Marion 8, Multnomah 10, Polk 1, Wasco 3, Union 4, Washington 5, Yamhill 6.

The average per centum of attendance was as follows: First term, free students 96, paying students 98; second term, free students 98, paying students, 97; third term, free students 88, paying students 95.

In the preparatory department, as appears from the reports of Prof. Spiller, the attendance was as follows: First term, whole number enrolled 74; second term 68, third term 25; average for the year 55½.

CLASSES.

In the collegiate department, classes were taught in the ancient languages, including Herodotus, Tacitus, the Iliad, Cicero's Orations, Cæsar, Livy, Zenophon's Memorabilia, Virgil, Aeschylus' Prometheus, Sallust, the Latin and Greek grammars and readers, German, astronomy, geometry, trigonometry, surveying, arithmetic, physics, chemistry, mechanics, optics, geology, physiology, mineralogy, zoology, botany, history, ancient and modern, of the United States and of civilization, the Constitution, international law, political economy, English Grammar, composition and rhetoric.

In the preparatory department, classes were taught in grammar, reading, spelling, writing, algebra, Latin, arithmetic, history and elocution.

CLASS RECORDS AND REPORTS.

I again venture to call attention to the fact that the term reports of

the teachers, with one exception, do not contain any information as to the standing of these classes, or the individuals comprising them; and that none of them contain any information upon the subject of attendance except the whole or highest number in attendance upon the class during the term. Each teacher ought to keep a daily minute or memorandum of the time occupied in the recitation or instruction of each of his classes, and the attendance, proficiency and conduct of each member of them, which should be averaged and entered in a permanent record at stated periods, say once a week, from which the President ought, in his annual report, to give a tabulated statement of the average attendance of each class, the work done by it, and the average character of it; and this statement might very properly be published in the Catalogue.

And while I am on this subject I am constrained to add, that with few exceptions, the reports of the Faculty are generally meagre and uninteresting, void of form or method, and often illegibly written on loose sheets of paper of various kinds and sizes.

In justice to themselves, as well as the scholars, they ought to make and keep a better record of the excellent work they appear to be doing among the latter.

Besides, this is a public school, carried on by the State, and a fair record of its work and proceedings, both scholastic and business, ought to be kept for the benefit and information of the public, to whom every one connected with it is ultimately responsible.

UNIVERSITY FUND.

The condition of the University Fund on June 30, 1882, as appears by a statement furnished by the State Treasurer, was as follows: Cash unloaned and on hand, \$23,732 12; loaned on 31 notes and mortgages, \$39,342 13; total, \$63,074 25; interest due on loans, \$3,907 96.

From one to three years' interest is due on some of these notes; and there is a year's interest, within a few dollars, due on the whole amount loaned, while the law under which the loans are made requires the interest to be paid semi-annually. For instance, a loan of \$800 made on April 14, 1871, has \$242 22 interest due on it—more than three years.

On June 30, 1880, the interest due and unpaid upon the sum loaned was \$1,813 77, less than half of what it was at the same period in 1882.

It is also apparent that the rate of interest must be reduced, if this fund is to be kept loaned. On June 30, 1881, the amount unloaned was \$12,159 56, something more than a fifth of the whole amount; while on June 30, 1882, the amount lying idle was \$23,722 12, or more than one-third of the fund.

I therefore renew my suggestion of last year, that the rate of interest be reduced to 8 or 9 per centum, and that over-due interest bear interest at the same rate as the principal. As we then said: "Funds of this kind are generally loaned below the maximum rate, because thereby you are enabled to make long loans upon undoubted security—two things very much to be desired."

UNIVERSITY LANDS.

The grant of 72 sections, or 46,080 acres of land, for "the use and support" of the University, was made by Congress in the act of February 14, 1859, (11 Stat. 383), admitting the State into the Union.

From a statement furnished me by the Clerk of the Board of Land Commissioners, it appears that the whole amount of land has been selected and 45,046.92 acres listed to the State or approved by the Department of the Interior, leaving 1,033.08 acres not yet so listed or approved.

From the imperfect condition of the records of the earlier sales of these lands, the clerk was unable, in the time allowed, to furnish an exact report of the number of acres sold, but gives the statement approximately as follows:

Sold, acres (about).....	29,000
Unsold, acres.....	17,080

46,080

These unsold lands he estimates to be worth \$1 50 an acre, or about \$25,000.

Several tracts of land constituting the security taken in the case of some of the improvident loans above mentioned, have been bid in by the board at judicial sales, and are now held by them for sale. The clerk estimates their value at about \$7000.

The possible value of the University Fund from these facts is as follows:

Cash in the treasury.....	\$23,732 00
Cash loaned.....	39,342 00
Lands unsold (estimated).....	25,000 00
Lands taken on loans (estimated).....	7,000 00

Total\$94,774 13

TEACHERS.

At the last annual meeting of the Regents, June 15, 1882, the several chairs or professorships were redefined and assigned as follows:
 Latin Language and Literature and Ethics—Prof. John W. Johnson.
 Mathematics and Astronomy—Prof. Mark Bailey.

Geology and Natural History and Ancient and Modern History—Prof. Thomas Condon.

Chemistry and Physics—Prof. George H. Collier.

Greek Language and Literature and Modern Languages—Prof. John Straub.

English Language and Literature and Mental Philosophy: This chair was occupied by Prof. Charles E. Lambert from November 1, 1881, but was not assigned, and is at present vacant.

Elocution and Principal of the Preparatory Department—Prof. Mary P. Spiller.

BENEFACTIONS.

The University building was erected by the citizens of Eugene and the vicinity as a condition precedent to the location of the University at that place. The building was accepted by the Commissioners for the Sale of School and University Lands in July, 1876, upon the understanding that it was wholly paid for. But afterwards claims were asserted against it by persons for labor and materials furnished in its construction, which, by the judgment of the Supreme Court, were declared to be liens on the building to the amount, with interest and costs, of \$8182, and the building was about to be sold to satisfy the same. There was no public fund applicable to the discharge of the indebtedness. In this emergency, some public spirited citizens of Eugene undertook to raise the amount by subscription, and had gotten \$1182 subscribed, when Mr. Henry Villard, without solicitation, generously contributed the remaining \$7000. Mr. Villard has also, during the past year, given the University \$1000 for a library, which sum has been judiciously expended for that purpose under his direction—\$1000 to be expended in apparatus—\$250 for prize scholarships of \$50 each, and \$1760 to pay the salary of a Professor of English Literature for a year from November 1, 1881. These timely and liberal donations have been duly acknowledged by the Regents, and it is hoped that this good example may be emulated by others.

GRADUATES.

At the last commencement a class of twelve persons was graduated—six in the scientific course, of whom four were women and two men; and six in the classical course, of whom two were women and four men. The essays and orations of the class are highly spoken of.

CONDUCT OF THE SCHOOL.

The conduct and application of the students is generally well spoken of in the reports of the Faculty, but the President says the conduct has not been so satisfactory as in past years, and that several of the

students have been before the Faculty for violating the rule concerning the use of spirituous liquors, when he thinks the punishment imposed was inadequate to the offense.

At the annual meeting of the Regents, additional by-laws 22, 23 and 24 were passed, whereby the Faculty was authorized to require students to sign an obligation to abide by the regulations prescribed by the Faculty or the Regents for their government. The teachers are required to use text books, and the time occupied in the recitation or instruction of the class is subject to the direction of the Faculty; and the Faculty are authorized to prescribe rules for the government of the scholars and impose penalties for their violation.

CATALOGUE.

Herewith please find catalogue for 1881-2, to which I beg leave to refer for further information.

CATALOGUE.

Anna Whiteaker, B. S.....	Pleasant Hill.
Charles S. Williams, B. S.....	Junction.

DEPARTMENTS.

The University comprises two departments—the Collegiate and the English Preparatory.

COLLEGIATE DEPARTMENT.

This department furnishes three courses of study—the Classical, the Scientific, and the Normal.

All candidates for admission to the Normal Course will be required to pass an examination in the following studies:

Reading.	Written Arithmetic.
Writing.	English Grammar.
Orthography.	Geography.
Mental Arithmetic.	History of the United States.

Students entering the Classical Course, in addition to the above, will be examined in Latin Grammar and Reader, two Books of Sallust, four Books of Cæsar, Greek Grammar and Reader, three Books of Xenophon's Anabasis, Elementary Algebra, Plane Geometry and Elementary Rhetoric.

Students entering the Scientific Course will be examined in the same studies, Greek excepted, as are required for admission into the Classical Course. They will be examined also in German Grammar, German Reader, and Classic German.

ENGLISH PREPARATORY DEPARTMENT.

This department has been organized to supply the existing want of suitable preparatory schools in the State, and therefore may not become a permanent feature of the University.

For the present, candidates for admission to this department will be examined in the following studies:

- Orthography.
- Reading—Through the Fourth Reader.
- Writing.
- Elements of English Grammar.
- Geography—Through Monteith's No. 3.
- Mental Arithmetic—To Percentage.
- Written Arithmetic—To Interest.

The course of Study in the English Preparatory Department will embrace those studies necessary to fit a student for the Normal Course of the University.

Studies preparatory to entering the Classical or the Scientific Course, not included in the English Preparatory Department, will be under the *direct* supervision of the Faculty, and students taking them will be charged college tuition and incidentals.

COURSES OF STUDY.

Classical and Scientific Preparatory Courses.

CLASSICAL.

FIRST YEAR.

First Term.—Elementary Rhetoric, Latin Grammar, Greek Grammar.

Second Term.—Elementary Algebra, Latin Lessons, Greek Lessons.

Third Term.—Elementary Algebra, Latin Reader, Xenophon.

SECOND YEAR.

First Term.—Cæsar, Xenophon, Elementary Algebra.

Second Term.—Geometry, Cæsar, Greek.

Third Term.—Geometry, Olney's Algebra, Sallust, Greek.

SCIENTIFIC.

FIRST YEAR.

First Term.—Elementary Rhetoric, Latin Grammar, German Grammar.

Second Term.—Elementary Algebra, Latin Grammar, German Grammar.

Third Term.—Elementary Algebra, Latin Reader, 1st German Reader.

SECOND YEAR.

First Term.—Cæsar, 2d German Reader, Elementary Algebra.

Second Term.—Geometry, Cæsar, Classic German.

Third Term.—Geometry, Olney's Algebra, Sallust, Classic German.

NORMAL COURSE.

FIRST YEAR.

First Term.—Arithmetic, English Grammar, Mental Arithmetic.

Second Term.—English Grammar, Elementary Algebra, Physical Features, Physiology, Zoology.

Third Term.—English Grammar, Elementary Algebra, Zoology.

SECOND YEAR.

First Term.—Elementary Algebra, Modern History, Elementary Rhetoric.

Second Term.—Geometry, Mineralogy, Philosophy of Arithmetic.

Third Term.—Trigonometry, Ancient History, Bookkeeping.

THIRD YEAR.

First Term.—Chemistry, Psychology, Botany, Natural Philosophy.

Second Term.—Astronomy, Natural Philosophy, Pedagogics.

Third Term.—Botany, English Literature, Constitution.

CLASSICAL AND SCIENTIFIC COURSES.

CLASSICAL.

FRESHMAN YEAR.

First Term.—Cicero—Stuart, Iliad, Algebra—Olney.

Second Term.—Memorabilia, Virgil, Geometry.

Third Term.—Ancient History, Trigonometry, Analytic Geometry, Livy—Lincoln.

SOPHOMORE YEAR.

First Term.—Livy, Tacitus, Herodotus, Modern History.

Second Term.—Rhetoric—A. S. Hill, Physical Features, Physiology, Zoology, Demosthenes.

Third Term.—Horace, Zoology, English Literature.

JUNIOR YEAR.

First Term.—Botany, Chemistry, Mechanics.

Second Term.—Political Economy, Physics, Logic or Chemical Analysis.

Third Term.—Constitution, De Natura Deorum, Physics.

SENIOR YEAR.

First Term.—Astronomy, Psychology, History of Civilization, Ethnology.

Second Term.—Astronomy, Mineralogy, Geology, Moral Philosophy.

Third Term.—Geology, International Law.

SCIENTIFIC.

FRESHMAN YEAR.

First Term.—Cicero—Stuart, French Grammar, Algebra—Olney.

Second Term.—French, Virgil, Geometry.

Third Term.—Ancient History, Trigonometry, Analytic Geometry, French.

SOPHOMORE YEAR.

First Term.—French, General Geometry, Modern History.

Second Term.—Rhetoric—A. S. Hill, Physical Features, Physiology, Zoology, General Geometry.

Third Term.—Calculus, Zoology, English Literature.

JUNIOR YEAR.

First Term.—Botany, Chemistry, Mechanics.

Second Term.—Political Economy, Physics, Logic or Chemical Analysis.

Third Term.—Constitution, Botany, Physics.

SENIOR YEAR.

First Term.—Astronomy, Psychology, History of Civilization, Ethnology.

Second Term.—Astronomy, Mineralogy, Geology, Moral Philosophy.

Third Term.—Geology, International Law.

In all the Courses, each student will have a weekly exercise in Composition or Declamation.

MISCELLANEOUS.

APPARATUS.

The University has about \$2,000 worth of mathematical instruments. Students in surveying and engineering by means of the Solar Compass and Engineer's Transit can become acquainted with practical field work in their department, and by means of the Sextant and other instruments they can learn the methods of finding the latitude and longitude of any place.

Students in Astronomy will have access for observatory practice to the Sidereal Clock, the 42-inch Astronomical Transit and the Sextant, and with these instruments the students will be able to find the latitude and longitude as well as the exact solar time of the University building by the methods used by astronomers and navigators. Those students who wish to do so can by means of these instruments extend the range of their mathematical knowledge almost as far as they please.

The collection of Mechanical, Physical and Chemical Apparatus is large and expensive; and provides for a very full course of class illustrations.

The Departments of Geology, Mineralogy and Natural History are provided with large and valuable collections to illustrate their teachings. Prof. Condon's cabinet is already widely known on this coast, and is justly noted for its wonderful record of Oregon's former history.

To this collection, large additions of eastern and foreign minerals are yearly made, and the whole is freely used in illustrating truth to the classes taught in these departments.

The supply of Apparatus in all departments will soon be largely increased by the expenditure of the \$1,000 donated by Mr. Villard for that purpose.

DONATIONS.

During the year an embarrassing claim against the *buildings* of the University, which the courts had decided to be valid, has been paid.

For this purpose the citizens of Lane county generously donated \$1,182, and Mr. H. Villard, President of the Northern Pacific Railroad, still more generously gave \$7,000.

Mr. Villard has also given \$1,000 in books for the library; \$1,000 for apparatus; \$250 to be awarded in scholarships of \$50 each to worthy and successful students, whose lack of funds exposed them to more than ordinary difficulty in their educational course; and has agreed to pay the salary of one professor for a year. This makes Mr. Villard's whole donation for the year \$11,010. It is only necessary to know how great relief these donations gave, to understand how thankfully they were received.

THE LIBRARY.

This much needed department has been founded this present School year (1881-2) by the generosity, and intelligent oversight of Mr. Villard, in the choice of the books. His special donation to the Library was \$1,000, and most judiciously has it been expended. The lines of investigation chiefly represented are Art, Literature and History.

The binding is in each case good—suitable for use—the edition generally the best, the authors the first in their special fields. The following are some of the more prominent works:

ART.

Lubke's, and Winkelmann's Histories of Art.
Ferguson's History of Architecture.
The editions are amply illustrated.

LITERATURE.

Teuffel's Roman, Van Laun's French, Tylor's American, and Ticknor's Spanish, Literatures, and Hallam's Literature of Europe.

HISTORY.

This line is specially cared for. Here are, Greene, Froude, Macauley, Knight, Hume, Goodwin, and the Epoch Series in English History. Buckle's Civilization, Bancroft's, Parkman's American Histories, Prescott's Mexico, Peru, and Ferdinand and Isabella, and Motley's Dutch Republic, John Barneveld, and United Netherlands.

Dyre's Modern Europe, Gibbon's, Mommsen's and Arnold's Histories of Rome, Grote's Greece, Thiers' Consulate and Empire, Taine's French Revolution, and Ancient Regime, Milman, Freeman, Lecky, Froissart, Duncker's "Antiquity," Rawlinson's Ancient Monarchies, etc.

The above is, as is seen, a choice nucleus, yet only a nucleus, of a library.

A small annual appropriation from the Legislature, of some \$500, for Library and Reading Room, is much needed.

GENERAL INFORMATION.

LITERARY SOCIETIES.

There are two Literary Societies—the Eutaxian and the Laurean—connected with the University, having a common Library of nearly one thousand volumes.

EXPENSES.

All bills of the University must be paid each term in advance.

Tuition, per year, in the College, \$40; in the Preparatory, \$30. Incidentals in College, \$10.

Board and room may be had in private families at \$4 per week; in clubs at \$3.

Students are not allowed to board or room at hotels.

EXAMINATIONS.

All classes will be examined at the close of each term.

CALENDAR.

First Term begins September 11, 1882.

First Term ends December 29th, 1882.

Second term begins January 1st, 1883.

Second Term ends April 6th, 1883.

Third Term begins April 9th, 1883.

Third Term ends June 14th, 1883.

Baccalaureate Sermon June 10th, 1883.

Address before the University, June 12th, 1883.

Reunion of the Literary Societies, Evening, June 12th, 1883.

Address before the Literary Societies, 10 A. M., June 13th, 1883.

Planting Class Tree, 3 P. M., June 12th, 1883.

Alumni Meeting, 4 P. M., June 13th, 1883.

Commencement, June 14th, 1883.

Reunion of the Alumni, Evening, June 14th, 1883.

DEGREES.

The degree of Bachelor of Arts will be conferred upon all students who have completed the Scientific or the Classical course as laid down in this catalogue.

Bachelors of Arts of 'three years' standing, may receive the degree of Master of Arts, provided, that since graduation they have sustained a good moral character, and pursued some literary or scientific calling.

The degree of Doctor of Philosophy will be conferred upon all students who shall remain and pursue a two years' course of study under the direction of the Faculty, after completing the classical or scientific course.

BY-LAWS

ADOPTED BY THE BOARD OF REGENTS DEFINING THE DUTIES AND LIABILITIES OF THE STUDENTS.

Any student who shall in anywise injure or destroy any property of the University shall be liable therefor, and upon neglect or refusal to make such compensation as the Executive Committee shall determine to be reasonable, may be suspended or expelled.

When a student holding a county scholarship absents himself or herself during the term, the scholarship shall be deemed vacant; provided, a scholar may be absent no longer than three months at a time, by obtaining the written consent of the Faculty.

When a student in the Collegiate or Preparatory department is necessarily absent from school on account of sickness ten weeks or more during any term, such student may be allowed one-half of the time on the next term on account of such sickness.

WHEREAS, The Constitution of this State, in Article 2 Section 4, provides that "For the purpose of voting, no person shall be deemed to have gained or lost a residence by reason of his presence or absence while a student at any Seminary of learning;" therefore be it

Resolved, That any person attending the University upon a free scholarship, who shall vote at any local election in the city of Eugene, shall be expelled therefrom for such unlawful act by the Faculty, and in case any other student attending the University shall vote at any such election unlawfully, he shall be expelled by the Board of Regents; and it is hereby made the duty of the Faculty to admonish the students of this by-law, and see that it is duly enforced.

COUNTY SCHOLARSHIPS.

Candidates for County Scholarships must pass examination in the studies required for admission to the Normal Course.

THE LAW IN RESPECT TO COUNTY SCHOLARSHIPS.

Each county in this State is entitled to one scholarship in the Collegiate Department of the University, and an additional scholarship

therein for each member and joint member of the Legislative Assembly to which such county may at the time be entitled.

Applicants for County Scholarships must apply in writing for the same to the County Superintendent of Common Schools, at least one month before the commencement of the school year in which they seek to enter, and such superintendent must receive such applicants and present the same to the County Court of the county when sitting for the transaction of county business, which court shall, with the aid of said superintendent, and such other person or persons as it may see proper to designate for that purpose, examine said applicants at a time appointed by it therefor, and the scholarships to which such county may then be entitled shall be awarded by such court among the applicants found to possess the requisite qualifications, by lot. Whenever a vacancy occurs in a county scholarship during the course of any school year, application may be made for it, and the same awarded in the manner provided in this section; reasonable notice being first given of the time when such proceedings will take place.

A person entering the University upon a county scholarship shall, at the commencement of the term next following such entry, be subject to an examination by the Faculty, and if found disqualified by reason of want of educational attainment, physical capacity, or moral character, such person shall be dropped from the roll of students, and the scholarship upon which he or she entered shall become vacant.

No person shall be eligible or entitled to the use of a County Scholarship in the University unless he or she has been an inhabitant of the county to which it belongs for one year immediately preceding the application therefor, nor unless such person possesses the qualifications, educational and otherwise, which the Board of Regents may prescribe for admission into the Collegiate Department thereof, nor shall any person who has been convicted of a crime involving moral turpitude, or who is notoriously of bad reputation or evil habits, ever be eligible or entitled to admission into said University upon such scholarship or otherwise.
